

I am disappointed to hear that Sinclair plans to run the Bush attack-ad "Stolen Honor" as a free service to the Republican party. I am very angry that Sinclair would use its position in the broadcast industry to influence an election. This is unethical and, I hope, soon shown to be illegal. I urge you to take whatever action is necessary to fight this corruption of news broadcasting. If they want to make an editorial endorsement of President Bush, they should not try to disguise it as a "documentary".
Thank you.
